PCGIntro. PCG: [FNAME LNAME]

(Hello, my name is (Interviewer) from the University of Michigan Survey Research Center.)

You have been selected to be part of an important study called the Family Economics Study–Child Development Supplement.

The purpose of the Family Economics Study – Child Development Supplement is to understand how families, schools, and neighborhoods affect children's and adolescents' growth and development.

- ENTER [1] to continue

RecordedIW_Consent. PCG: [FNAME LNAME]

We sometimes record interviews to help us maintain quality. Your interview may be recorded for quality control purposes. Do you agree for this interview to be recorded?

- If R consents to the RECORDING of this interview, ENTER [1]
- If R does not consent to the RECORDING of this interview, ENTER [5]
- If resuming a suspended interview, RE-READ the consent and ENTER [1] if R consents to recording or [5] if R does not consent to recording

1. Yes, consent given 5. No, consent not given

Asked for each CDS Child preloaded for PCG

CHGRADE[1-15]. PCG: [FNAME LNAME]

CDS Child: [CHFNAME CHLNAME], Age [CHAGE]

1st ITERATION

Before moving on to the interview, I'd like to record the grade your [1 CDS CHILD: child is / >1 CDS CHILD: children are] currently attending in school. [>1 CDS CHILD: Let's start with [CHFNAME].] What grade is [CHFNAME] currently attending in school?

ALL OTHER ITERATIONS

(How about) [CHFNAME]? (What grade is [CHFNAME] currently attending in school?)

- IF R SAYS 'Does not attend school', PROBE to clarify whether Child is not old enough for school, graduated/ finished a GED (and not enrolled in college), or dropped out of school without a diploma/GED

1. Grade 1 2. Grade 2 3. Grade 3 4. Grade 4

5. Grade 5	6. Grade 6	7. Grade 7	8. Grade 8
9. Grade 9	10. Grade 10	11. Grade 11	12. Grade 12
13. Graduated high school; GED; not currently enrolled in postsecondary school			
14. College		15. Dropped out; has not earned GED	
95. Kindergarten	96. Pre-kindergarten; nursery school	97. Not old enough for school	

PCG_RB. PCG: [FNAME LNAME]

[F1]-Help

ASK/Verify that R has the Respondent/Response Booklet with (him/her) for the interview. ASK R: Do you have your Response Booklet with you (that we mailed to you with the letter asking for your participation)? We will be using this booklet throughout the interview. On certain questions, I will ask you to refer to a page in the booklet for help in answering the question. (Would you like to go find it?)

- IF R doesn't have the Respondent/Response Booklet with (him/her) or cannot find it, SAY TO R: If you're able to connect to the internet you could view the booklet on line. The website is <http://fes.isr.umich.edu/CDS2014-RB-PCG/>
- RECORD whether R has the Respondent/Response Booklet, is viewing it on line, or the interview is being done without the booklet.

1. R has Response Booklet with (him/her)	2. R viewing Response Booklet on line
3. Interview will be done without Response Booklet	DK/RF not allowed

[TOC](#)

CONSENTF2F_TEL.

Indicate whether this interview is being conducted face to face or on the telephone.

1. Face to face	2. Telephone
-----------------	--------------

CONSENT12_17IW.

As a part of the Family Economics Study - Child Development Supplement, I would like to ask your children who are between ages 12 and 17 years questions about their experiences in school, at home, and with friends. Some questions are about sensitive topics including sexual behavior and drug and alcohol use. Your child(ren) will also be asked to complete a time use diary for a week day and a weekend day. The interview is completely voluntary and confidential. Even after you give your informed consent, your child(ren) may decide not to participate or to stop the interview at any time. The interview for each child is designed to take between 20 and 30 minutes, depending on your child(ren)'s age, but may be shorter or longer. We will provide each child with \$20 as a token of our appreciation for his/her participation. The child(ren) eligible for this part of the study [is/are]:

- Enter the consent status for each child listed below.
- Only ENTER [2] if approved by the Project Team in Ann Arbor

[CHFName CHLName], [CHAge] (of each child age 12-17)

- Inform PCG that the questions which are regarding sensitive topics like sexual behavior and drug and alcohol use will not be asked by a live person, but by an automated system over the phone. Their interviewer will not be the one asking these questions.

HW3 RULE: WHETHER THIS IS THE PCG

PCG	CDS CHILD	→ GO TO HWEND RULE
↓		

HW3. [FNAME LNAME], PCG

Tel

What is your waist measurement in centimeters?

FTF

Now, I would like to measure your waist.

Instruct the respondent to remove any bulky clothing.

Hand the flexible measuring tape to the respondent. The respondent should be in the standing position

Hold one end of the tape measure at your navel.

Now wrap the tape measure all the way around your waist, bringing the tape measure back to your navel.

If the respondent is not able to wrap the tape measure around his or her waist, you may assist. To do this, ask the respondent to hold the end of the measuring tape while you walk around him or her with the other end. You will then hand that end of the measuring tape to the respondent and continue with the measurement. Do not reach around the respondent to place the tape in the proper position, and avoid touching the respondent.

Check that the tape is horizontal all the way around the respondent.

Please take a normal breath and exhale holding your breath at the end of the exhale.

Your waist circumference is measured at the point where the length of tape measure around your waist meets the end held at your navel.

Read the measurement on the tape measure after the respondent exhales or ask the respondent to read it to you, and then record the measurement to the NEAREST CENTIMETER.]

- Record waist measurement in centimeters to the nearest decimal point
- ENTER a number from 50 to 190 centimeters, or PRESS [Enter] for inches

SALIVAF2F_TEL. IWER: Indicate whether this interview is being conducted face to face or on the telephone.

1. Face to face	2. Telephone
-----------------	--------------

SALIVAINTRO. To help us better understand the many factors that contribute to children's well-being, we are collecting samples of saliva from caregivers and children who are 5 years and older. The saliva samples that families provide will allow researchers to study the connections between genetics and health and development. All of the information contained in your saliva samples will be stored securely and will remain confidential. Your and your children's participation in this component of the study is voluntary.

1. Continue

FTF_TEL RULE:

SALIVAFTF_TEL = FACE TO FACE	SALIVAFTF_TEL = TELEPHONE	→ GO TO SALIVA_TEL
↓		

Saliva_FTF. IWER: Pull out and show the respondent the Saliva Collection Information Sheet.

Please read this information about the saliva collection. (IWER: Offer to read it to the PCG if appropriate.)

We'd like you to sign this form indicating that you have read the information and that you agree to participate for yourself and your children, ages 5 to 17, in this part of the study.

IWER: You will use the Fujitsu laptop to collect the PCG's signature. Please rotate the cover of the laptop to use as a tablet. Let the respondent read the consent form; answer any questions they might have; and help the respondent complete and sign the consent form on behalf of him/herself and his/her child(ren).

1. Continue	5. If Vol: PCG refused to sign saliva consent at all	→ GO TO BLOCK STATUS <i>Saliva Section=PCG REF</i>
Launch the saliva consent form (Form B9)		

SALIVA_ADMIN RULE:

Saliva_lwerCheck. Interviewer Checkpoint:

- ENTER [1] to continue to the rest of this section

Saliva_Admin_PCG. IWER: Confirm that respondent did not eat, drink, chew gum, or smoke in last 30 min.

IWER: Put on gloves. Show the PCG a saliva collection kit and the instruction sheet. Write the Case ID [DISPLAY PCG IVR ID] and PCGs first name, [DISPLAY PCG's first name], on a label and attach the label to the saliva collection device.

This is the collection device. Please spit into the funnel until you have filled the tube up to the fill line with liquid – not bubbles. (Show the fill line.)

IWER: When the tube is full explain to the respondent how to close funnel, unscrew it, and screw on the small cap. Ask R to place in bio-bag or take the sample from R and place it in a bio-bag, then in the preaddressed padded envelope. Up to four (4) samples can be mailed in one padded envelope. You may read these instructions below or from paper administration instruction sheet when needed.

Please hold the tube upright with one hand. Close the cover of the funnel with the other hand by firmly pushing the lid until you hear a loud click. The liquid in the lid will spill down into the tube to mix with the saliva. Make sure the lid is closed tightly.

Hold the tube upright and unscrew the funnel from the tube.

Use the small cap to close the tube tightly.

Shake the capped tube for 5 seconds. Discard or recycle the funnel.

IWER: Take the tube from the respondent or ask them to place the tube into the small, nylon bio-bag. Be sure that the labels are affixed and legible. Place the tube into a padded, preaddressed envelope.

CHILDREN AGE 5-8

[CHFNNAME], [CHGENDER], Age [CHAGE], [CHGRADE]

Your family is part of a project to help people learn about children as they grow up. The people doing the project have asked children to spit into a tube. They will use the spit in the tube to study your health. Will you spit into the tube? Your [mother/caregiver] has said it's okay for you to do this. But you can still say no if you don't want to.
IWER: If child is not available to administer the saliva collection, ENTER 9. Pre-label the saliva collection kits for the child by writing the child's Case ID and first name on a label and attach the label to the saliva collection devices. Leave saliva collection kit, instructions, and mailing materials with the PCG and ask that he/she administer to the child and mail in to Ann Arbor.

1. Continue	5. If Vol: Child refused to give saliva sample	9. Left saliva collection kit with PCG to administer to child and mail back to AA	→ GO TO BLOCK STATUS <i>Saliva Section=Done</i>
GO TO SALIVA_ADMIN.CH	GO TO NEXT CHILD. AFTER CHILD 15, GO TO BLOCK STATUS - <i>Saliva Section=Child Ref</i>		

CHILDREN AGE 9-11

[CHFNNAME], [CHGENDER], Age [CHAGE], [CHGRADE]

Your family is part of a study to help scientists learn about children as they grow up. As part of this study, scientists are collecting samples of saliva. Saliva is the liquid in your mouth that helps you to chew and swallow. Scientists study your saliva to learn about your health.
 By spitting into a tube, your saliva will be included in the study. The tube will be sealed. Then it will be mailed to a research center where it will be kept safe. No one will be able to connect you to your sample where it is stored. Will you provide a sample of your saliva? You can say no if you don't want to, even if your [mother/caregiver] has already agreed.
IWER: If child is not available to administer the saliva collection, ENTER 9. Pre-label the saliva collection kits for the child by writing the child's Case ID and first name on a label and attach the label to the saliva collection devices. Leave saliva collection kit, instructions, and mailing materials with the PCG and ask that he/she administer to the child and mail in to Ann Arbor.

CHILDREN AGE 12-17

[CHFNNAME], [CHGENDER], Age [CHAGE], [CHGRADE]

(Your family is part of a study that is helping researchers to learn about children and teenagers as they grow up.) As part of this study, our research team is collecting samples of saliva. The saliva sample you provide will allow researchers to study the connections between genetics and young people's health and growth.
IWER: If child is not available to administer the saliva collection, ENTER 9. Pre-label the saliva collection kits for the child by writing the child's Case ID and first name on a label and attach the label to the saliva collection devices. Leave saliva collection kit, instructions, and mailing materials with the PCG and ask that he/she administer to the child and mail in to Ann Arbor.

1. Continue	5. If Vol: Child refused to give saliva sample	9. Left saliva collection kit with PCG to administer to child and mail back to AA	→ GO TO BLOCK STATUS

IWER: Put on gloves. Show the PCG a saliva collection kit and the instruction sheet. Be sure you have the kit and tube with the respondent's first name. Write the Case ID and first name on a label and attach the label to the saliva collection device.

This is the collection device. Please spit into the funnel until you have filled the tube up to the fill line with liquid – not bubbles. (Show the fill line.)

IWER: When the tube is full explain to the respondent how to close funnel, unscrew it, and screw on the small cap. Ask R to place in bio-bag or take the sample from R and place it in a bio-bag, then in the preaddressed padded envelope. Up to four (4) samples can be mailed in one padded envelope. You may read these instructions below or from paper administration instruction sheet when needed.

(Please hold the tube upright with one hand. Close the cover of the funnel with the other hand by firmly pushing the lid until you hear a loud click. The liquid in the lid will spill down into the tube to mix with the saliva. Make sure the lid is closed tightly.

Hold the tube upright and unscrew the funnel from the tube.

Use the small cap to close the tube tightly.

Shake the capped tube for 5 seconds. Discard or recycle the funnel.)

IWER: Take the tube from the respondent or ask them to place the tube into the small, nylon bio-bag. Be sure that the labels are affixed and legible. Place the tube into a padded, preaddressed envelope.

1. Child (CHFName) Saliva Obtained	5. Child (CHFName) Attempted Saliva but unable to fill to line

Interviewer Checkpoint

- Did you pay cash for the saliva?

1. Yes	5. No	→ GO TO ChildIntro
--------	-------	--------------------

Launch Child Saliva Cash Receipt,
then go to Child Intro

Saliva_TEL. In the next week, you will receive a saliva collection kit in the mail. The kit will include materials and instructions for you and your eligible children to provide a small sample of saliva. The package will also include a form where you may indicate that you agree to participate in this part of our study. The kit will include instructions on how to return the collected samples and form by mail.

- Refer to Saliva Collection Information sheet to address any respondent questions posed.

1. Continue	→ GO TO BLOCKSTATUS; <i>Saliva Section=Done</i>	5. IF Vol: PCG refused to have saliva package mailed to household	→ GO TO BLOCKSTATUS; <i>Saliva Section=PCG REF</i>
