YST1A. Next, we'd like to find out how you spent your day yesterday, [YESTERDAY].
I’m going to ask you what you were doing starting at 4:00am. Then I'll ask a few more questions about the activity, like:
- how long it took;
- where you were;
- who was doing the activity with you, and;
- who else was there.
We'll repeat this series of questions until we reach the end of the day.
If you were traveling, we'll treat that as a separate activity. So, for instance, driving to the doctor would be separate from being at a doctor's appointment, and then driving home would also be a separate activity.
If you were doing more than one activity for the time I ask you about, that's fine. You can tell me more than one activity for a given time.

YST1B. Sometimes people want to know how much detail we are looking for.
If you tell me you worked from 9 to 5, I may ask you to break that down for me, for example, into having meetings from 9 to 11, answering e-mails for an hour until 12, having lunch until 1, and so on.
Or, if you tell me you cleaned the house all morning, I may ask for more detail, for example, you straightened up from 9 to 9:30, folded laundry for half an hour, made the beds at 10:00, and so on.
On the other hand, you don't need to tell me about changing the TV channel or walking from room to room in your house. So, somewhere in between.
And if an activity is too personal, there's no need to mention it.
Ok? Let's begin.
