

## **Event History Calendar**

### **Systems Requirement:**

- Microsoft Windows 95, Microsoft Windows 98, Microsoft Windows NT 3.51 or 4.0
- 16MB RAM minimum, 32MB recommended
- 15MB of hard disk space
- Sound card with Speakers (Optional)

### **Download Instructions :**

The Event History Calendar demo download is about 10.2MB in size. Simply save the file to a folder or a temporary location on your hard-drive. Double-click on the downloaded file to install the software. Once installation of the Event History Calendar demo is complete, you may remove the downloaded file.

### **Installation Instructions:**

Just run ehc-demo.exe to start the installation procedure, then follow the instructions displayed on your screen.

### **Getting Started On The Event History Calendar Prototype:**

After the Installation, the Main Menu will automatically launch. On the Main menu there are three options, 1) Demo with sound, 2) Demo without sound, and 3) Install prototype. Option 1, moves you through the application, demonstrating all the features of the Event History Calendar with sound. Your computer must be equipped with a sound card for this feature. Option 2, moves you through the application, demonstrating all the features of the Event History Calendar without sound. If you do not have a sound card, you should choose this option. Note: It is strongly recommended that you run the Demo before installing the prototype. Option 3, will install the Event History Calendar onto your computer. Choose this option if you would like to see a working copy of the prototype.

Once you are finished installing the prototype, you can start the application by clicking on the Start Menu, Programs, and select Event History Calendar, and not Event History Calendar Demo from the program list. If you select Event History Calendar Demo, it will bring you to the Main Demo screen and not the prototype application.

To start a case, on the menu item, click on File then Opencase. The SampleId Lookup prompt will pop up with the default SampleId. Click OK to continue. The case displayed will have all the data fields filled out. You can add, edit, or delete the data in this case.
