Panel Study of Income Dynamics: 2013 Rosters and Transfers Parent/Child File- Final Release

RT13V60 "RELEASE NUMBER" NUM(1.0)

Release Number

For Release 2 we have generated a new distance measure RT13V112 which is a calculation in whole miles between the Main Family place code coordinates and the Parent/Child place code coordinates. Please note this new variable may be obtained under restricted contract only.

<u>Count</u>	<u>%</u>	<u>Value/Range</u>	<u>Code Value/Range Text</u>
-	-	1	Release number 1, October 2015
23,967	100.00	2	Release number 2, August 2016

RT13V61 "ROSTERS AND TRANSFERS FILE (ID) NUMBER" NUM(5.0)

Rosters and Transfers Interview Number

This number is the merge key between the Rosters and Transfers Family Level File (RT13FAM) and it's companion file Rosters and Transfers Parent/Child Level File (RT13PARCHD). There may be some records in the family level file that have no corresponding records on the Parent/Child file however, all records in the Parent/Child file will have a record on the RT Family level file. RT13V61=RT13V2 (RT Family file variable). Please note this number is unique on the RT13FAM file but may not be contiguous.

This variable is a component of the primary key for the Parent/Child File.

RT13V61 (Interview Number) + RT13V70 (Type of Record) + RT13V72 (Record Number) provides a unique key to every record on this Parent/Child File.

<u>Count</u>	<u>%</u>	<u>Value/Range</u>	<u>Code Value/Range Text</u>
23,967	100.00	1 - 9,107	Interview Number

RT13V70 "TYPE OF RECORD" NUM(1.0)

Type of Record

This variable is a component of the primary key for the Parent/Child File.

RT13V61 (Interview Number) + RT13V70 (Type of Record) + RT13V72 (Record Number) provides a unique key to every record on this Parent/Child File.

<u>Count</u>	<u>%</u>	<u>Value/Range</u>	<u>Code Value/Range Text</u>
11,275	47.04	1	Child record
12,692	52.96	2	Parent Unit record

RT13V72 "RECORD NUMBER" NUM(2.0)

Record number for Child/Parent record

This variable is a component of the primary key for the Parent/Child File.

RT13V61 (Interview Number) + RT13V70 (Type of Record) + RT13V72 (Record Number) provides a unique key to every record on this Parent/Child File.

<u>Count</u>	<u>%</u>	<u>Value/Range</u>	<u>Code Value/Range Text</u>
23,967	100.00	1 - 15	Record number

Panel Study of Income Dynamics: 2013 Rosters and Transfers Parent/Child File- Final Release

RT13V112 "DISTANCE IN MILES B/T FAM AND CHLD/PAR" NUM(4.0)

Distance between the Main Family place code coordinates and the Child or Parent's place code coordinates in whole miles.

This variable is suppressed (filled with zeroes) in the public release file to protect the anonymity of respondents. The data are available in a separate file to qualified users under special contractual arrangements with the PSID; for more information, contact us at PSIDhelp@umich.edu.

<u>Count</u>	<u>%</u>	<u>Value/Range</u>	<u>Code Value/Range Text</u>
0	.00	0	Main Family place code coordinates and Child or Parent's place code coordinates are the same
0	.00	1	Distance between Main Family place code coordinates and Child or Parent's place code coordinates is one mile or less
0	.00	2 - 6,000	Actual distance between Family place code coordinates and Child or Parent's place code coordinates rounded to the nearest whole mile
0	.00	9,999	Distance between Main Family place code coordinates and Child or Parent's place code coordinates could not be ascertained because either Main Family place code or Child/Parent place code not valid (RT13V110=0 or 99999) and/or (RT13V111=0)
