

Conferences and workshops organized by PSID, 2000-2021

September 1 6-17, 2021 - To be conducted virtually on Zoom

PSID Annual User Conference: The goals of the PSID Annual User Conference are to provide new and experienced researchers with a forum to present preliminary results, to obtain comments and feedback from experienced PSID data users and PSID study staff, to facilitate future collaborations including NIH and NSF proposal submissions, to learn about new PSID data, and to provide feedback to PSID about study content and future data collections.

The 2021 conference includes papers from PSID small grants awarded for research using data from the PSID Child Development Supplement and/or the PSID Transition into Adulthood Supplement.

The event was supported by the Eunice Kennedy Shriver National Institute on Child Health and Human Development, the National Institute on Aging, and the National Science Foundation. Attendance is restricted to registered participants and invited guests.

June 15-19, 2020—held online

PSID Data User Training Workshop, University of Michigan, Ann Arbor

This five-day workshop will orient participants to the content and structure of the Core PSID, its special topics modules, and the PSID Child Development Supplement and PSID Transition into Adulthood Supplement. The workshop pairs morning instructional sessions led by experienced PSID researchers and staff with afternoon guided lab sessions in which users construct their own analytic data files.

The application portal opens in February and applications are due by April 17th, 2020. A limited number of stipends are available to graduate students and junior researchers who apply by the application deadline to help with travel and lodging costs. Applications received by the deadline will be given priority for enrollment. Learn more about the workshop [here](#).

The event is supported by the *Eunice Kennedy Shriver* National Institute on Child Health and Human Development, the National Institute on Aging, and the National Science Foundation. Attendance is restricted to registered participants and invited guests.

September 12-13, 2019

PSID Annual User Conference: The goals of the PSID Annual User Conference was to provide new and experienced researchers with a forum to present preliminary results, to obtain comments and feedback from experienced PSID data users and PSID study staff, to facilitate future collaborations including NIH and NSF proposal submissions, to learn about new PSID data, and to provide feedback to PSID about study content and future data collections.

The conference welcomed submissions on any topic, from researchers in any field, that used data from PSID or its supplements—the Child Development Supplement, the Transition into Adulthood Supplement, the Disability and Use of Time Supplement, the Childhood Retrospective Circumstances Study, or the Wellbeing and Daily Life Supplement.

The event was supported by the *Eunice Kennedy Shriver* National Institute on Child Health and Human Development, the National Institute on Aging, and the National Science Foundation. Attendance was restricted to registered participants and invited guests.

August 22, 2016

PSID held an Informational Workshop at the American Sociological Association Annual Meeting (Seattle, WA) - This interactive workshop was geared toward current and prospective users of the Panel Study of Income Dynamics (PSID, psid.org), the world's longest longitudinal household panel survey. It provided an overview of the general design and content of PSID and its supplemental surveys. The second half of the workshop included a detailed walk-through of the PSID website, documentation, and data center as well as a question-and-answer session related to participant-specific inquiries. The PSID has collected data on a wide range of sociologically relevant topics from a nationally representative sample of US families and their descendants since 1968. Content domains include employment, occupations, income, wealth, education, expenditures, health, aging, marriage, childbearing, child development, youth transitions, philanthropy, intergenerational relations, and numerous other topics.

June 13-17, 2016

Panel Study of Income Dynamics (PSID) Data User Workshop - A PSID [Data User Workshop](#) was held through the Inter-university Consortium for Political and Social Research's (ICPSR) Summer Program in Quantitative Methods of Social Research, in Ann Arbor, June 13-17, 2016. The goals of the workshop were to orient participants to the content and structure of the core PSID interview and its supplemental studies. PSID project staff provided instruction to the 25 participants who included graduate students, postdoctoral scholars, faculty, and research professionals. A second workshop will be held through ICPSR in Ann Arbor during the summer of 2017. These workshops are sponsored by the *Eunice Kennedy Shriver* National Institute on Child Health and Human Development.

June 9-10, 2016

Conference on New Directions in Intergenerational Transfers and Time Use in Later Life - The Panel Study of Income Dynamics, with support from the National Institute on Aging, held a two-day conference in Ann Arbor Michigan on intergenerational transfers and time use in later life.

March 30, 2016

Panel Study of Income Dynamics Workshop for New and Prospective Users - The Panel Study of Income Dynamics (PSID) offered a pre-conference workshop at the 2016 Population Association of America meeting in Washington, DC. The event was free to registered meeting attendees.

The interactive workshop provided an overview of PSID, highlighted the structure and content of the main interview, its supplemental surveys including the 1997-2008 Child Development Supplement, the Transition into Adulthood Supplement, and the Disability and Use of Time Supplement, and data collection efforts such as the Rosters and Transfers Module, the Childhood Retrospective Circumstances Study, the Adult Well-Being Study, the 2014 Child Development Supplement, and a new immigrant refresher that was fielded in 2017. The second half of the workshop offered a walk-through of the PSID website, documentation, and data center.

April 24, 2015

Rising Wealth Inequality. Causes, Consequences, and Potential Responses - the PSID will co-sponsored a conference that featured leading researchers on the topic of wealth inequality. Attendance was restricted to registered participants and invited guests.

[Agenda](#)

March 18, 2013

New Directions in Consumption Research with PSID - The PSID hosted a one-day workshop focused on consumption research and measurement. Several research papers were presented using the expanded PSID consumption data, and ideas were discussed for ways to enhance the PSID for consumption-based research.

[Agenda](#)

September 13-14, 2012

Inequality Across Multiple Generations - The conference featured new research on inequality dynamics across multiple (at least three) generations. Conference attendance was restricted to registered participants and invited guests.

[Agenda](#)

May 5-6, 2011

The effects of early life events on late life health and well-being - The PSID cosponsored a two-day conference that examines the impact of early life events on late life health, economic outcomes, and well-being.

[Agenda](#)

September 23-24, 2010

Conference on SES and Health Across Generations and Over the Life Course - The Panel Study of Income Dynamics, with support from the National Institute on Aging, held a two-day conference on SES and Health in Ann Arbor, Michigan. PSID is supporting 8 research projects with small grants. The conference will bring together these scholars and others in the area of life course SES and health to generate additional scientific and policy-relevant findings, facilitate future collaborations including NIH proposal submissions, and provide feedback to PSID about possible needs for content changes and/or future data collections.

September 17, 2010

Conference on Spatial Distribution of Family Members Across the Life Course - The Panel Study of Income Dynamics and the Health and Retirement Study, with support from the National Institute on Aging, held a conference at the University of Michigan, Ann Arbor, featuring research based on the newly available geospatial data from these two panel studies. Data on location and distances between family members are available in both studies and can be used to examine a wide array of issues. The goals of the workshop are to stimulate research using these new data and to learn from researchers ways in which such data can be made more accessible to the research community.

June 3-4, 2010

Child Development Supplement Wave III and Transition into Adulthood Study New Results Workshop. A workshop featuring the use of new data from the third wave of the Child Development Supplement and the Transition into Adulthood study was held at the University of Michigan, Ann Arbor with support from the Eunice Kennedy Shriver National Institute on Child Health and Human Development and the Economic Research Service of the United States Department of Agriculture.
