As a part of the Family Economics Study - Child Development Supplement, I would like to ask your children who are between ages 12 and 17 years questions about their experiences in school, at home, and with friends. Some questions are about sensitive topics including sexual behavior and drug and alcohol use. Your child(ren) will also be asked to complete a time use diary for a week day and a weekend day. The interview is completely voluntary and confidential. Even after you give your informed consent, your child(ren) may decide not to participate or to stop the interview at any time. The interview for each child is designed to take between 20 and 30 minutes, depending on your child(ren)'s age, but may be shorter or longer. We will provide each child with $20 as a token of our appreciation for his/her participation. The child(ren) eligible for this part of the study [is/are]:

- Enter the consent status for each child listed below.
- Only ENTER [2] if approved by the Project Team in Ann Arbor

[CHFName CHLName], [CHAge] (of each child age 12-17)

- Inform PCG that the questions which are regarding sensitive topics like sexual behavior and drug and alcohol use will not be asked by a live person, but by an automated system over the phone. Their interviewer will not be the one asking these questions.

What is your waist measurement in centimeters?

FTF

Now, I would like to measure your waist.
Instruct the respondent to remove any bulky clothing.
Hand the flexible measuring tape to the respondent. The respondent should be in the standing position
Hold one end of the tape measure at your navel.
Now wrap the tape measure all the way around your waist, bringing the tape measure back to your navel.
If the respondent is not able to wrap the tape measure around his or her waist, you may assist. To do this, ask the respondent to hold the end of the measuring tape while you walk around him or her with the other end. You will then hand that end of the measuring tape to the respondent and continue with the measurement. Do not reach around the respondent to place the tape in the proper position, and avoid touching the respondent.
Check that the tape is horizontal all the way around the respondent.
Please take a normal breath and exhale holding your breath at the end of the exhale.
Your waist circumference is measured at the point where the length of tape measure around your waist meets the end held at your navel.
Read the measurement on the tape measure after the respondent exhales or ask the respondent to read it to you, and then record the measurement to the NEAREST CENTIMETER.]
