Q34BACKWDINTRO

IWER: You can only read these instructions once.

Now, I am going to say some more numbers, but this time when I stop, I want you to say them backward.

If I say 9-2-7, what would you say?

Pause for the respondent to answer. Did he/she respond correctly (7-2-9)?

If YES (7-2-9).....SAY:

That's right. Let's go on with the rest of the numbers.

If NO.....SAY:

No, you would say 7-2-9. I said 9-2-7, so to say it back wards you would say 7-2-9.

Now try these numbers. Remember you are to say them backward.

Here is a picture to use in answering the question I will ask next. For example, if I asked: How hard is spelling for you?

If you think spelling is very easy, you would tell me the number 1.

If you think it is very hard, you would tell me the number 7.

What would you say if it's not easy or hard?

Your parents, friends, siblings, teachers, and other people you know will not see your responses. In fact, the people who will look at your responses will not know your name or have any way to identify you

After I explain a few of the keys that you'll be using, I'll help you with the first few practice-questions, just to get you familiar with how this will work. Then I'll leave you on your own to answer the rest of the questions in private.

EXPLAIN use of computer and also the use of the hot keys [CTRL-D] and [CTRL-R] to [Child].

Give [Child] a "keyboard navigation card" that explains how to move around in the ACASI section.

When you are done with this section, a screen will come up that will tell you to return the computer to me.
