V5257 "1977 ANNUAL NEED STD"

NUM(5.0)

Annual Need Standard in 1976

This is the Orshansky-type poverty threshold, based on an annual food needs standard derived from the weekly food costs above, which is converted to an annual amount and adjusted for economies of scale by USDA rules as follows:

Single person - add 20%
 Two persons - add 10%
 Three persons - add 5%
 Four persons - no change
 Five persons - deduct 5%
 Six or more persons - deduct 10%

An additional adjustment for diseconomies of small households (in rent, etc.) was made as follows for the Annual Need Standard:

*4.89 times the food needs for single persons
 3.70 times the food needs for two-person units
 3.00 times the food needs for all other units*

Note that the computation of this variable is based on V5256 above, which uses 1967 dollar values.

(Not adjusted for farmers; see V5629 for an income/needs measure which makes this adjustment).

D2. What is your main occupation? (What sort of work do you do?)

D3. Tell me a little more about what you do.

E15. What sort of work did you do on your last job? (What was your occupation?)

F6. What kind of work did you do when you worked? (What was your occupation?)

This version of occupation was coded retroactively using original PSID reports and the three-digit 1970 Census occupation codes for a selected sample of PSID Heads and Wives/"Wives":

(a) *Original sample Heads and Wives/"Wives still living by 1992 who reported main jobs in at least three waves during the period 1968-1992, with at least one of those reports prior to 1980.*

(b) *Additionally, original sample Heads and Wives/"Wives" who had reported at least one main job between 1968 and 1980 but were known to have died by 1992.*

The selection criteria did not include all Heads and Wives/"Wives" who had worked between 1968 and 1980. Those who were still living but had reported only one or two jobs during the period of interest were excluded, as were all nonsample Heads and Wives/"Wives".

Therefore not every Head or Wife/"Wife" has data for this variable.

For detailed information about the Retrospective Coding Project, please

see the document, 'A Panel Study of Income Dynamics: 1968-1980

Retrospective Occupation-Industry Files Documentation', on our website.

The 3-digit industry code from 1970 Census of Population; Alphabetical Index of Industries and Occupations issued June 1971 by the U.S. Department of Commerce and the Bureau of the Census was used for this variable. Please refer to Appendix V2, Wave XIV documentation, for complete listings.

V5507_A "OCCUPATION OF WIFE 77" NUM(3.0)

G6. What kind of work did she do?

This version of occupation was coded retroactively using original PSID reports and the three-digit 1970 Census occupation codes for a selected sample of PSID Heads and Wives/"Wives":

- (a) *Original sample Heads and Wives/"Wives still living by 1992 who reported main jobs in at least three waves during the period 1968-1992, with at least one of those reports prior to 1980.*
- (b) *Additionally, original sample Heads and Wives/"Wives" who had reported at least one main job between 1968 and 1980 but were known to have died by 1992.*

The selection criteria did not include all Heads and Wives/"Wives" who had worked between 1968 and 1980. Those who were still living but had reported only one or two jobs during the period of interest were excluded, as were all nonsample Heads and Wives/"Wives". Therefore not every Head or Wife/"Wife" has data for this variable. For detailed information about the Retrospective Coding Project, please see the document, 'A Panel Study of Income Dynamics: 1968-1980 Retrospective Occupation-Industry Files Documentation', on our website.

The 3-digit industry code from 1970 Census of Population; Alphabetical Index of Industries and Occupations issued June 1971 by the U.S. Department of Commerce and the Bureau of the Census was used for this variable. Please refer to Appendix V2, Wave XIV documentation, for complete listings.

1977 Family Data: Final Release

V5681 "HOUSEHOLD ID # 77" NUM(4.0)
Household Identification Number

This variable was generated to simplify the clustering of multiple panel family units residing in the same households. Its values were assigned simply by selecting a 1977 ID number (V5202) with the lowest value from among the 1977 ID numbers of those families comprising each such household group. This value was used in these file positions for all of the related households. Thus, if the user sorts the data ordered by this variable, the family units within larger household groups will be adjacent to each other. Family units who did not share their households with any other family unit or shared only with non-panel family units were given their own values for V5202.

V5683 "CENSUS NEEDS STANDARD-1976" NUM(5.0)
Annual Needs Standard for the 1976 Family--CENSUS VERSION

This poverty threshold was taken from Census Bureau's website, <http://www.census.gov/hhes/www/poverty/data/threshld/index.html> We have used the table entitled 'Income Thresholds at the Poverty Level by Sex of Head, Size of Family, and Number of Related Children Under 18 Years Old, by Farm-Nonfarm Residence.' We used Non-Farm Residence tabulations.

The threshold values are based on sex of Head, family size, the number of persons in the family under age 18, and the age of the householder. Due to some of the limitations of our extant files, we were unable to generate the number of months for those individuals who moved out of multiple families in the same wave. Otherwise the calculation of needs is similar to that described in Section I, Part 5, of guide to the 1993 PSID data, 93GUIDE.PDF.
